SUMMARY

Hi, I'm Islam Ramdan
I'm a Front-End Developer.
I Design and Code Simple yet beautiful Websites. I also enjoy Implementing of designs. I believe everything is an Art when you put your consciousness in it. You can connect with me via social links.

WORK EXPERIENCE

FreeLancer

- I created several projects, two projects for real clients. and most of other freelancing projects were for my friends and relatives and to teach me

- In the past, I Learned some fundamentals of programming from CS50 Course and some of Python

- I have some valuable experience in the Front-End field because of the projects I have been working on
